A comparative review of common user interface products

Dorner, Daniel G; Curtis, AnneMarie
Library Hi Tech v22n2 PP: 182-197 2004
ISSN: 0737-8831 JRNL CODE: LIHT
WORD COUNT: 8363

...TEXT: dozens of databases available in many libraries, and to lament the difficulties in implementing a **search interface** across a wide variety of database communications protocols. The literature falls into three main categories...

...in decisions about system enhancement or replacement. This current review of common user interface software **products** falls within the **category** of systems evaluation with partial or no user involvement, and replicates the style of evaluation...

...in an extensive search of the Internet using Google and the Yahoo and BUBL Link **directory** sites. Product information was downloaded from the vendor Web sites. Some vendors offered more than...whether a superseded version of the product was reviewed (see Table X).
Search features

Advanced **search functionality** , particularly cross-database searching, is the primary purpose of common user interface software products. Accordingly...

...less mature overall than the search features evaluated, although 73 per cent of products allow **search queries** to be refined and users to select which records are printed or downloaded from a...

...in particular.

User interaction options are less prevalent in common user interface software products than **search functions** . Improvement in this area would be enormously beneficial for library users and it is hoped...

...platform, and it is unlikely that this will be offered in the future.

System support **requirements**

Vendors were asked to state the approximate amount of time a systems librarian would need to...
...the system, redesign of user interfaces and configuring new resources as they are added. The **vendor** descriptions of the system support **requirements** for their product are as follows:

* Chameleon iPortal maintenance times vary depending on the situation...

06665637 SUPPLIER NUMBER: 106473733 (USE FORMAT 7 OR 9 FOR FULL TEXT)

Model RFP for integrated library system products.

Waller, Nicole

Library Technology Reports, 39, 4, 1(64)

July-August, 2003

ISSN: 0024-2586 LANGUAGE: English RECORD TYPE: Fulltext

WORD COUNT: 25811 LINE COUNT: 02124

... updated systems that run smarter and faster, using less hardware and simpler software. As a **class** of **products**, however, integrated library systems aren't big business for vendors--new-name sales are increasingly...

...instructions to bidders, systems and functional requirements, support and hardware specifications, acceptance testing, and reliability **requirements**.

An RFP seeks information from **vendors** about already-developed systems or systems in development slated for near-term release. A library does not expect any **vendor** to satisfy all its **requirements**. After receiving proposals, the library staff selects a vendor whose product strikes the optimal balance...

...vendor over another allows all to compete fairly from the same set of rules and **requirements**.

* Because **vendors** are working from the same set of rules and requirements, the differences between proposed systems...their regular duties with responsibilities on the purchase team). The American Library Association maintains a **directory** of library consultants, as do several state library agencies.

Disadvantages of working with consultants include...

...in any bidding vendor's system are listed here. After scanning the list of critical **requirements**, a **vendor** should immediately know whether its ILS product meets the library's most basic needs.

Specifications...

...will be read as negative responses.

6. Exceptions: What does the vendor lack?

If the **vendor** does not meet the **specifications** set forth in this RFP, the vendor must specifically address this discrepancy in its proposal

...

...where and how prices will be listed in the bid, and under what (if any) **conditions** a **vendor** may resubmit prices after proposals have been opened.

11. Bid bond: How do we know...

...present in its chosen system.

17. Installation: When and how?

The library states that the **vendor** must abide by **specifications** for installation listed later in the RFP.

18. Award of contract: How do you know...

...a checklist is a good idea for tightening the document and facilitates easier comparison among **vendor** responses.

Section II. General system **requirements**

A. The system: What are you shopping for?

In this section, the library defines the...

...needs.

At the current state of development, nearly all ILS products handily meet these basic **requirements**. Rather than asking **vendors** what they support, this section can be better constructed as a narrative or bullet points...

...Remote peripherals: How will the system work with the library equipment?

The library asks the **vendor** to provide minimum **requirements** for staff PCs, Web-based patron access catalogs, side printers, light pens, and portable terminals...

...modems must be included in the vendor's bid to support this service.

Section V. **Vendor** support

Vendor support **specifications** must be the most carefully worded sections in the RFP. In this section, the library...

...the vendor must be responsible for, what hours field maintenance will be available, and what **conditions** the **vendor** must meet for repairs.

G. Escrow agreement: What if ...?

To protect itself from vendor bankruptcy...allowed libraries to assess which systems had the largest amount of desired functionality.

These copious **requirements** also were used to dare **vendors** into developing something--RFPs were, in part, libraries' wish lists for features and functions. These...

...it, say we meet them all--they'll never check anyway.")

Given ambiguous or unclear **requirements**, most **vendors** will simply say yes, and if questioned will bring out all the issues involved and...

...systems. Librarians who send RFPs for these products frequently haven't learned enough about the **products** as a **class**. The RFP is intended to gain specific information about a specific type of product, but...that matter little to the library. When a vendor doesn't support some of those **specifications**, the library eliminates a **vendor** based on something it didn't need--resulting in a doubly bad situation because the...

...RFQ) is not a replacement for an open RFP. Sent to a limited number of **vendors**, it lists **specifications** for desired functions and seeks price quotations for exactly those specifications.

In 2002, Southeastern Libraries...

...on paper."

Baerg-Epstein helps clients develop a modified RFI that not only seeks the **vendors** ' documentation and product **spec** sheets but also asks about and explains the particular concerns and problems of the library... data that the Union Catalog must contain. Can we identify that minimum?

5.8. Necessary **search functions**

What search features and functions are important to the expert user? What features and functions are important to the beginning or occasional user? What **search functions** of the current Catalog do you regularly use? What are the deficiencies with the existing **search functions** ? What **search functions** do you like in other systems.

CDL RFP checklist

This checklist is a preliminary list...

...columns marked with responses for vendors to check off. Checklists are quicker for both the **vendor** and the library's **selection** committee but can be misleading if either party forgets to include anything.

Contract: A legal...

Significant release information is displayed during installation. Those migrating from an earlier...retrieval, is maintained as a text file called PCCWIN.IGN. It resides in the same **directory** as the bibliographic data for the catalog. As there is no administrative access to the...typical of 32-bit Windows software. The user is allowed to specify the drive and **directory** for GLAS program files and a second location for files associated with the @ccess web...

...must go to each workstation and invoke the NETSETUP.EXE file residing in the GLAS **directory** on the server. Icons are placed on the workstation for each module purchased by the...Circulation, Acquisitions, and Serials. Among the options under General are specifications for the drive and **directory** of each software module; treatment of initial articles in headings; treatment of contractions in headings...then go to each workstation and run the SETUP.EXE file in the DB/TextWorks **directory** on the server to enable textbase access from that workstation. Program files consumed about 7...

...file. The only thing the user needs to know during installation is the drive and **directory** on which DB/TextWorks has been installed.

Inmagic's 44-page introduction to the Library...bibliographic record in what one hopes will soon be an editable format. Title-Coded displays **language**, medium and **several** other values from the incoming bibliographic record plus some coded values pertaining to the circulation...computer-the machine that maintains the bibliographic database-in that order and into the same **directory**. Although LexiFile is a DOS program, it comes with a standard Windows installation that performed...

...files, users accessing LexiFile from across the local area network must do so from a **directory** that no other user is likely to use. This could be a **directory** on the hard drive of the workstation, or it could be a **directory** on the file server that is assigned exclusively to a single workstation. Lex Systems recommends...Library. Serial, Library. Acquire, Library. Request (interlibrary loan management).

INSTALLATION

Library.Solution falls into the **category** of "non-shrink-wrapped" **products** that are normally implemented with considerable involvement on the part of the vendor. The usual...Auto Librarian is written, are automatically installed in the C:\PROGRAM FILES\BORLAND\COMMON\BDE **directory**, where they consume just over 4 MB of space.

These locations will work on computer and **directory** for software installation would make things easier on such older systems. The vendor advises that...

...on dot-matrix printers is provided in the System folder of the \AUTO LIBRARIAN 4 **directory**. It should have been copied to the Auto Librarian **directory** during installation, but was not to be found there or on the installation CD. Printing...95/98 file backup utility to back up the

contents of the \Auto Librarian\Tables **directory** .

CIRCULATION

Circulation comes to the fore when Auto Librarian is launched. The Due Dates Editor...is quick and easy. The user has the opportunity to specify the drive and directory in which the program will reside. Installation consumes about 8 MB of disk space before data...
